### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of North Wisconsin District of the Lutheran Church - Missouri Synod and Subsidiary (the "District"), which comprise the consolidated statements of financial position as of December 31, 2020 and 2019, and the related consolidated statements of activities and cash flows for the years then ended and the related notes to the consolidated financial statements.

### **Management's Responsibility for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of North Wisconsin District of the Lutheran Church - Missouri Synod and Subsidiary as of December 31, 2020 and 2019, and the results of its consolidated operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States.

## **Report on Supplementary Information**

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary consolidating information on pages 25 through 32 is presented for purposes of additional analysis of the consolidated financial statements rather than to present the consolidated financial position, changes in net assets, and cash flows of the individual organizations, and it is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the supplementary consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

## Notes to Consolidated Financial Statements

### Note 1: Summary of Significant Accounting Policies

#### Nature of Activities

The North Wisconsin District of the Lutheran Church - Missouri Synod and Subsidiary (the "District"), a not-for-profit organization, is one of 35 geographic Districts of The Lutheran Church - Missouri Synod (the "Synod"), encompassing over 216 congregations in northern Wisconsin and the western portion of the Upper Peninsula of Michigan, one campus ministry center, and Camp Luther located in Three Lakes, Wisconsin. The Synod established its District offices to more effectively achieve its objectives and assist its congregations and their members in conserving and promoting the unity of the faith, and in carrying out their functions of worship, witness, teaching and nurture, service, and support.

#### Basis of Accounting

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

#### Financial Statement Presentation

The accompanying consolidated financial statements include the accounts of the North Wisconsin District of the Lutheran Church - Missouri Synod, and its 100% owned subsidiary, Camp Luther, Inc. (together the "District"). Significant intercompany accounts and transactions have been eliminated.

#### Classification of Net Assets

The District reports information regarding its financial position and activities based on the existence or absence of donor-imposed restrictions. The two classes of net assets are as follows:

- Net Assets Without Donor Restrictions – Net assets that are not subject to donor-imposed stipulations.
- Net Assets With Donor Restrictions – Net assets subject to donor-imposed stipulations that may or will be met either by actions of the District and/or the passage of time. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

#### Cash and Cash Equivalents

Cash and cash equivalents include currency, demand deposits, and liquid investments with a maturity, at time of purchase, of three months or less. Cash and cash equivalents do not include investments the District has both the ability and intent to hold long-term.

## Notes to Consolidated Financial Statements

### **Note 1: Summary of Significant Accounting Policies (Continued)**

The District maintains balances at several local financial institutions. Interest-bearing accounts at these institutions are insured by the Federal Deposit Insurance Corporation (FDIC) for up to \$250,000. At times, balances may exceed FDIC insured levels. The District also holds accounts at the Lutheran Church Extension Fund (LCEF), which are neither insured nor collateralized. Management has assessed the creditworthiness of these institutions and does not feel the deposits are subject to significant risk.

#### **Accounts Receivable**

Accounts receivable are stated at the amount the District expects to collect from balances outstanding at year-end. The District individually reviews accounts receivable balances that exceed normal payment terms. Based on the District's assessment of the credit history with customers having outstanding balances and current relationships with them, it has concluded that an allowance for realization losses on balances outstanding at December 31, 2020 and 2019 is not necessary. Balances that are still outstanding after the District has used reasonable collection efforts are written off through a charge to operations and a credit to accounts receivable. No interest is accrued on past due accounts.

#### **Promises to Give and Contributions Receivable**

Promises to give consist of pledges related to construction of capital projects. Contributions receivable consists of contributions related to church services. Unconditional promises to give are recorded as receivables in the year pledged. Promises to give whose eventual uses are restricted by the donors are recorded as increases in net assets with donor restrictions. Promises to give to be collected in future periods are also recorded as an increase to net assets with donor restrictions. The District considers its promises to give to be fully collectible; accordingly, no allowance for doubtful accounts is required at December 31, 2020 and 2019.

#### **Inventory**

Inventory consists of nonperishable foodstuffs and clothing at Camp Luther's canteen and is held for sale. Inventory is stated at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

#### **Property and Equipment**

Property and equipment are recorded at cost, except for property received by gift which is recorded at fair value on the date of receipt. Major expenditures for property and equipment in excess of \$5,000 and all expenditures for repairs, maintenance, improvements, and betterments that materially prolong the useful lives of the assets are capitalized. Maintenance, repairs, and minor improvements less than \$5,000 are expensed as incurred. When assets are retired or otherwise disposed of, their costs and related accumulated depreciation are removed from the accounts, and the resulting gains or losses are included in the consolidated statements of activities.

### Note 1: Summary of Significant Accounting Policies (Continued)

Property, improvements, equipment, and vehicles are depreciated using the straight-line method over the following estimated useful lives:

Property and other improvements	10 to 40 years
Equipment and furnishings	5 to 10 years
Vehicles	3 to 5 years

### Impairment of Long-Lived Assets

The District reviews long-lived assets, including property and equipment, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the asset are less than the carrying amount of that asset. No impairment loss was recognized for the years ended December 31, 2020 and 2019.

### Investments

Investments in mutual funds are carried at fair value based on quoted market prices. Realized and unrealized gains and losses, reflected in the consolidated statements of activities, are determined by comparison of the investment cost to proceeds at the time of disposal or to market values at the financial statement date, respectively. Investment income is shown net of investment fees.

### Split Interest Arrangements

The District has been notified by the Lutheran Church - Missouri Synod Foundation (the "Foundation") that the Foundation is holding split interest gift arrangements that are mainly composed of gift annuities and unit trusts in which the District is one of the beneficiaries. Gift annuities and unit trusts provide that the annuitants will receive payments for life. At the death of the annuitants, all remaining assets, if any, are directed in accordance with the related agreements.

The present value was calculated based upon life expectancies using a discount factor of 3.5% at both December 31, 2020 and 2019.

### Deferred Revenue

Revenue received in advance for future Camp Luther programming and registration fees is presented as deferred revenue on the consolidated statements of financial position and recognized as revenue over time as the programming is being provided. Amounts billed but unpaid for services provided are recorded as accounts receivable but are typically immaterial.

## Notes to Consolidated Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Revenue Recognition

Contributions, including promises to give, are considered conditional or unconditional, depending on the nature and existence of any donor or grantor conditions. A contribution or promise to give contains a donor or grantor condition when both of the following are present:

- An explicit identification of a barrier, that is more than trivial, that must be overcome before the revenue can be earned and recognized
- An implicit right of return of assets transferred or a right of release of a donor or grantor's obligation to transfer assets promised, if the condition is not met

Conditional contributions are recognized when the barriers to entitlement are overcome. Unconditional contributions are recognized as revenue when received.

Unconditional contributions or conditional contributions in which the conditions have been substantially met or explicitly waived by the donor are recorded as support with or without donor restrictions, depending on the existence and nature of any donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Contributions that are restricted by the donor are reported as increases in net assets without donor restrictions if the restrictions expire in the fiscal year in which the contributions are recognized.

In accordance with GAAP, unconditional promises to give that are expected to be collected within one year are recognized as support and recorded as a receivable at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows, discounted at an appropriate interest rate.

Contributed property and equipment are recorded at fair value at the date of donation. Contributions with donor-imposed stipulations regarding how long the contributed assets must be used are recorded as net assets with donor restrictions; otherwise, the contributions are recorded as net assets without donor restrictions.

The District's grant awards are contributions which are evaluated for conditions and recognized as revenue when conditions in the award are satisfied. Unconditional awards are recognized as revenue when the award is received. Amounts received in which conditions have not been met are reported as a refundable advance liability.

In addition, contributed services are reported in the consolidated financial statements at fair value for voluntary donations of services when those services (1) create or enhance nonfinancial assets or (2) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. There were no services donated to Camp Luther for onsite medical services for the year ended December 31, 2020. For the year ended December 31, 2019, revenues included \$5,000 of services donated to Camp Luther for onsite medical services.

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Expense Classification

Expenses are classified on the consolidated statements of activities by major functions of the District as follows:

- World and National Missions - World missions include personalized world ministry support. National missions include, but are not limited to, North American new mission work, campus ministries, deaf ministries, ethnic ministries, urban ministries, congregational subsidy, and related conferences and events.
- Preparing Church Workers - Includes financial aid provided to students attending one of the ten colleges/universities or two seminaries of the Synod.
- Congregational Services - Supports District congregational service efforts and includes, but is not limited to, Sunday school activities, confirmation, family life, day care, adult education, outdoor ministry, singles ministry, elementary and secondary education, and related conferences and events.
- Camp Operations - Includes Camp Luther expenses and activities.
- Mission and Ministry Support Services - Includes the District's communication efforts, financial and general service activities, the operation/maintenance of District office facilities, District/Synodical convention expenses, and the District's support of the LCEF efforts.
- Ecclesiastical and Program Administration - Includes activities of the president's office, vice presidents, circuit counselors, reconcilers, and related conferences and events, as well as support of the District Board of Directors and its related committees.
- Fund-Raising - Includes gift planning support of the District.

All of these programs and support services include the related program and administration expense associated with that particular function.

#### Income Taxes

The District is an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended, and has received a determination letter from the Internal Revenue Service stating that it is exempt from federal income tax on its related exempt activities under Code Section 501(a).

In order to account for any uncertain tax positions, the District assesses whether it is more likely than not that a tax position will be sustained upon examination of the technical merits of the position, assuming the taxing authority has full knowledge of all information. If the tax position does not meet the more likely than not recognition threshold, the benefit of the tax position is not recognized in the consolidated financial statements.

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts recorded in the consolidated financial statements and disclosed in the accompanying notes. Actual results could differ from those estimates.

#### Functional Expenses

The cost of program and supporting service activities have been summarized on a functional basis in footnotes to the consolidated financial statements. Note 16 presents an analysis of expenses by nature and function. Costs are charged directly to program and supporting service categories as presented. Personnel expenses are allocated based on time and effort. Operating expenses are allocated based on time and materials.

#### Change in Accounting Principle

In 2018, the FASB issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurements*. The amendments in this ASU are intended to improve the effectiveness of disclosures about fair value measurements required under Accounting Standards Codification (ASC) 820. The ASU removes certain disclosures and modifies others. The District has applied the amendments in this ASU on a retrospective basis. There was no change in opening balances of net assets and prior period results were not restated.

#### New Accounting Pronouncement

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This ASU requires lessees to record assets and liabilities on the consolidated statements of financial position for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the consolidated statements of activities. ASU No. 2016-02 is effective for nonpublic companies for annual periods beginning after December 15, 2021. The District is currently evaluating the impact of the provisions of this pronouncement.

#### Subsequent Events

The District has evaluated subsequent events occurring through **DATE**, which is the date that the consolidated financial statements were approved and available to be issued, for events requiring disclosure or recording in the District's consolidated financial statements.

### Note 3: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the District uses various valuation methods including the market, income, and cost approaches. The assumptions used in the application of these valuation methods are developed from the perspective of market participants pricing the asset or liability. Inputs used in the valuation methods can be either readily observable, market corroborated, or generally unobservable inputs.

# North Wisconsin District of the Lutheran Church - Missouri Synod and Subsidiary

## Notes to Consolidated Financial Statements

---

### Note 3: Fair Value Measurements (Continued)

Whenever possible the District attempts to utilize valuation methods that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation methods, the District is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values.

Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs that are not corroborated by market data.

The following table presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the fair value hierarchy at December 31, 2020:

	Assets at Fair Value as of December 31, 2020

### Note 17: Retirement Plan

The District participates in the Worker Benefit Plans of the Synod. Substantially all full-time employees are covered by these retirement and survivor programs. The District contributes 2% of each participant's salary to the plans. Retirement and survivor program expenses for the years ended December 31, 2020 and 2019, totaled \$147,661 and \$115,233, respectively.

### Note 18: Endowment

Accounting standards provide guidance on classifying net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of Uniform Prudent Management of Institutional Funds Act (UPMIFA). A key component of the current standard is expanded disclosures about all endowment funds.

The District's endowment consists of approximately six individual funds established for a variety of purposes. As required by GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions. The governing board may, at its discretion, designate funds to function as an endowment.

Interpretation of Relevant Law - The District's governing board has interpreted the UPMIFA enacted in the State of Wisconsin as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the District classifies as net assets with donor restrictions (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made.

In accordance with UPMIFA, the District considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the District and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the District
7. The investment policies of the District

### Note 18: Endowment (Continued)

**Return Objectives and Risk Parameters** – The District has adopted an investment policy that is structured to participate in certificates of deposit and bank demand deposits. Endowment assets include those assets of donor-restricted funds that the District must hold in perpetuity or for a donor-specified period(s) as well as board-designated endowment funds. Under this policy, the endowment assets are invested in a manner that attempts to provide consistent real growth of principal. The District expects its endowment funds, over time, to provide an average annual rate of return that should meet growth in the consumer price index. Actual returns in any year may vary from this amount.

**Strategies Employed for Achieving Objectives** – To satisfy its long-term rate-of-return objectives, the District relies on a total return strategy in which investment returns are achieved through current yield. The District places a great emphasis on steady and consistent growth with little to no risk.

Endowment net assets to be held in perpetuity at December 31, 2020 and 2019 totaled \$1,748,183, each.

### Note 20: Support Concentration Risk

The District relies on donations from its member congregations for a significant portion of its support. As shown on the consolidated statements of activities, support from District congregations represented approximately 37% and 31% for the years ended December 31, 2020 and 2019, respectively. These donations are subject to fluctuations in the economic status of the area in which the congregations are located. No provisions have been made for changes in the economic environment.

### Note 21: Business Conditions

Beginning in March 2020, the United States economy began suffering adverse effects from the COVID-19 crisis including financial markets, supply chains, businesses, and communities. Specific to the District, COVID-19 may impact various parts of its 2021 operations and financial results. Management believes the District is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.
